The funds said, were used in distributing literature. Mr. Thurber's acknowledgment created a sensation and is regarded both as a great victory for the best sugar men and a severe defeat for Senator Aldrich, the Republican Senate leader.

All nations, except Great Britain and Japan, have agreed to the proposition of the United States to scale down the boxer indemnity claims. A REAL FRIEND

"I suffered from indigestion for fifteen years," says W. T. Starnett of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and now my digestion is good. I cheerfully recommend Kodol. Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid." A. M. Hughes

Former Governor General Wood is alleged to have paid Gen. Maximilian Gomez, the Cuban patriot, the sum of \$25,000 to remain out of the race for the first presidency of the Cuban Republic. This statement is made by Charles M. Dobson, a newspaper correspondent, just returned to America from Havana, who says the money was paid over with the knowledge of both President McKinley and President Roosevelt. One alleged reason for the reported payment is that the Administration in Washington believed that the candidacy of Gomez would be disastrous to the election then in progress in the United States.

S. P. Harris, representing the New Domain Oil and Gas Company, passed through here last week. M. T. Allen, of Prestonsburg, passed through here last week on his return from Fine Top, where he has been buying mineral lands for several months, and we understand was very successful.

H. E. Patton, our worthy Supt. of Schools, was here last week looking after the interests of schools, and we predict for him a splendid administration, as he intends to elevate the educational question to a higher plane than ever before, giving to all just what they deserve. He intends to put education on a strictly business basis, by keeping out of it all teachers who drink and removing all trustees who get drunk. All good people say let the good work go on. Let our youths see good examples. Our people are expecting from all our school officers good administration, and our people are watching with the eye of a critic the movements of Judge Stanley and attorney Jack May in the establishment of a public road up the right hand side of Beaver.

The people up the Beaver, Prater and Mud valleys all ask, yes demand that a bridge be established across Beaver near the mouth and also near the forks and a road up the right hand side of Beaver. Our officers are coming and aggressive men and we hope that they will keep step with all necessary improvements.

We need, in this progressive age, a live and reliable man. Such a man is the Hon. F. A. Hopkins, of Floyd, and the people of this district will not be hoodwinked this time and intend to see that the Hon. F. A. Hopkins is nominated and triumphantly elected.

DORTON.

We are located in the very heart of the most extensive coal field in the world. The famous Elkhorn vein has been opened here in many places, and those who are so lucky as to secure a good "black" in this area have a fortune in hand. Nearly every acre here is now out of the hands of the natives. Much of it sold at 50c to 75c per acre, while now the same mineral rights are selling from 4 to 10 dollars per acre, and in a very few years this same coal will bring from 35 to 50 dollars per acre and will be thought very cheap at that.

Coal is not all of value that is "black-rimmed" hills contain. A party of explorers brought in the other day, a block of a most pure lead, a block of a most pure iron, and a block of a most pure copper. The Indians were known to procure lead in this same locality, as well as silver. Col. Spradley showed me a sample of lead, taken from the mountain that cypresses the waters of the Sandy and Kentucky rivers. The two samples are in appearance the same except as to size.

Mr. Elliot, I think, is a fine field for a new settlement. I have been here for nearly seven weeks and find only two copies of the News and a copy of the New York World read here. These people live in the world of poverty which is not always like the city.

The state of morals here might be improved on, and the old are set in their ways, the avenue is through the children, and if there could be a system of Sunday schools such as we have in Lawrence county, I think much good might be wrought for the Savior, and the coming generation. They have several religious denominations here, none of which seem to be warm, active and full of life, but on the contrary, they are hanging from every pole.

Squire John Alox Mullins tendered his resignation to Judge Ruffin, and Col. Joshua Osburn has been commissioned.

Martha and Cora Branson have established a supply house at the mouth of Beedfield and has many patrons.

John Muncy, who has been with the Shelby creek surveying corps, took sick recently and had to return home.

Rev. F. M. Mullins is trying sang culture.

The 17-year locust is here by the thousands.

Services are held in the bush. Corn is made here with a shovel and a hoe.

The north land here is as rich as a manure heap, as steep as it is rich, and as rocky as it is rich.

John Melbyer, Boyd county's engineer, has charge of the Langhorn Bros. surveyors here.

William Boelter, the cattle king of the Cumberland, is a warm member.

I think we will have a railroad to go home on, as we can hear the booming of the rock blasters from the breaks to the mouth of Shelby creek.

Judge J. M. Roberson, Pike's most brilliant attorney, has been here for several days on business for Langhorn Bros.

The "rejuvenator" captured and sent a moonshine factory back to George Holbrook on Beedfield creek Monday.

William Oliver Buchanan Ruffin is logging on Roberson creek.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or settling indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble. 100 frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.
